Dear [redacted]

I very much appreciate your letter of April 13th urging that the cancer treatment used by Dr. Emanuel Revici be looked into in connection with my brother's illness.

Oddly enough I have also just received a letter from a former cured cancer patient of Dr. Revici's urging the same thing. I have brought both of these letters to the attention of the physicians handling Foster's case and I understand they are quite familiar with Dr. Revici's work. I am informed that his methodology, along with various others, is being given every consideration in connection with its possible application in Foster's illness.

With many thanks for your thoughtfulness and every best wish.

Faithfully,

SIGNED

Allen W. Dulles
